

6. Mother and Her Child

VERSE 1 (SOLO)

Mother and her child
Hold tight
Mother and her child
Stay warm tonight

In this world of
Pain and sadness
One thing should be sure
Mother and her child
Forevermore

VERSE 2 (ALL)

Mother and her child
Be brave
Mother and her child
Ride the waves

In this world of
People shouting
One place should be calm
Mother with her child
Safe from harm

CHORUS

Winter's cold, the night gets dark
The lake is frozen in the park
And though you're far from home
and all the ones you love
You'll find their smiles in the stars above

VERSE 3

Mother and her child
One day must part
Mother and her child
You're in my heart

In this world of
perfect chaos
One bond should be true
Mother and her child
Me and you

CHORUS

Winter's cold, the night gets dark
The lake is frozen in the park
And though you're far from home
and all the ones you love
You'll find their smiles in the stars above
You'll find their smiles in the stars above
You'll find their smiles in the stars above
